About Me

Motivated Full Stack Developer with a solid background in web technologies including HTML, CSS, JavaScript, PHP, and MySQL, as well as experience with modern frameworks like React. Proficient in creating responsive and user-friendly web applications, capable of managing both front-end and back-end development. Enthusiastic about learning, adapting, and contributing to innovative projects while advancing my skills in a professional setting.

WORK EXPERIENCE

As a newcomer to the workforce, I may not have formal job experience, but I have gained substantial practical knowledge through various projects and training:

Full Stack Development Trainee – Ardent Computech Pvt. Ltd.
- Completed an extensive course in Full Stack Development, which included HTML, CSS, JavaScript, React, PHP, and MySQL.
- Participated in hands-on projects that enhanced my web development skills.

Academic Project – Full Stack + Machine Learning
- Developed an academic project that combines full stack web development with machine learning concepts.
- Demonstrated the ability to integrate data-driven solutions with web technologies.

Portfolio Website
- Designed and created a personal portfolio website to showcase my skills and projects.

E-commerce Website
- Developed a fully functional e-commerce website with product listings, a shopping cart, and checkout features.

Minor Projects
Contributed to several small-scale web applications to strengthen my understanding of responsive design and database management.

HOBBIES

Listing songs,Online gaming,Writing Poem and Story
